Facade Classique

Item No.	Item description	Total Price inc. GST
House Type		618,850.00
1-1	Rothbury Grand Theatre Atrium 51 (30.3) - Double storey brick veneer, integrated double lock-up garage, tiled roof, standard class 'M' foundations.	594,900.00
1-2	Provide Classique facade in face brickwork including brick work over Garage opening and rendered lightweight cladding above the Garage roof line. Includes feature mouldings, feature windows and feature render to Porch.	18,950.00
1-3	Provide surcharge for blocks with a previous/existing house and/or vacant land in a built up area.	5,000.00
1-4	This quotation has been prepared for a nominated Site Start in December 2024.	Note Only
1-5	Façade illustrations on Carlisle Homes website, sales material and brochures are for illustrative purposes only and may vary between house type and house size selected. Windows, front entry doors and frames are commonly altered to the façade to suit room layouts in different house designs and to suit different house widths. Please refer to the specific master drawings of the house type and size selected for the exact facade details and the specific windows, front entry doors or frame styles and sizes. Your colour selection and contract documentation will be prepared specific to this house and façade selection. Should you choose to select an alternate house type or façade within 2 weeks prior to your colour appointment, you will incur a fee of \$500 to produce amended documentation.	Note Only
1-6	National Construction Code 2022 The Owner acknowledge and agrees that unless expressly stated in the sales quotation, contract tender or contract documents, the price for the construction of the dwelling does not include the changes to the National Construction Code 2022 (NCC 2022), including energy efficiency (7 star rating) and accessible housing requirements. Subject to the building permit date and/or Building Surveyor's certification that the building design is substantially complete, compliance with the NCC 2022 may not be required. Any changes required to comply with the NCC 2022 will be raised by the Builder by way of Building Variation and the Builder will be entitled to additional costs and extensions of time as required.	Note Only
Credits or Discounts		-32,999.00
2-1	Provide Sales Manager approved discount for \$20,000 for site start in December 2024. Note: If the commencement of the building works cannot be achieved by the allocated site start date due to delays beyond the builder's control this discount may not apply and a variation will be raised to revert the discount.	-20,000.00

Inclusions Promotion		7,999.00
----------------------	--	----------

3-1	January 2023 More Luxury Inclusions Internal Items Notes and Conditions to be read in conjunction with selected items:	Note Only
-----	--	-----------

WET AREAS CAESARSTONE
Refer to floor plan for standard ensuite(s), bathroom and powder room(s) layouts.

FULL HEIGHT WALL TILING
Includes the following additional items to suit:
- wall studs @ 300mm centres
- square set cornice including laser levelling
- 18mm architrave instead of 12mm
- chipboard backing to mirror - tiles can not abut mirror
- tile trims to external corners at openings
- tiling can not be provided on wall where a cavity sliding door is installed but full height will be installed in shower recess

Note: An 18mm profile architrave needs to be selected with full height wall tiling, 12mm profile are not suitable for use in wet areas with full height wall tiling due to thickness of tile and glue finishing up to edge of architrave. Not all architrave profiles are available in 18mm.

Cavity sliding door can not be provided due to requirement for studs at 300mm centres, additional studs can not be provided to cavity sliding pocket.

NOTE: IF MIRRORS FINISH ADJACENT TO A WINDOW A MICROTRIM WILL BE PROVIDED TO MIRROR AND MIRROR THICKNESS UPGRADED TO 6MM IN LIEU OF 4MM, MAXIMUM MIRROR SIZE IS 1100MM X 1200MM.

LAUNDRY
Laundry Option 2 extension to benchtop and overheads is minimum 700mm to accommodate underbench washing machine or dryer.
Laundry Option 3 extension to benchtop is minimum 1400mm and maximum 1500mm to accommodate underbench washing machine and dryer. Full extension may only be available if standard base cupboard is reduced in width and this is house specific depending on overall Laundry dimensions and available space.
Available options are dependent on house specific Laundry layout and dimensions. Final layout will be discussed at Spectra appointment and reflected in contract drawings.

FLOOR COVERINGS
Up to Category 4 floor tiles OR up to Category 3 timber flooring to Entry, Kitchen (Pantry), Living & Meals and Category 1 carpet to the remainder of the house, excluding Entry, Kitchen (Pantry), Living, Meals, Wet Areas, Garage & Alfresco.
Floor coverings offer applicable to the standard floor plan areas only, excluding any extensions.

3-2	The following items are included in "More Luxury Inclusions" in addition to or instead of '365 Days' inclusions:	More Luxury 2023 Inclusions
-----	--	-----------------------------

FAÇADE

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

- Up to \$5,000 reduction to the retail price of all rendered aerated concrete panel facades.

3-3 January 2023 More Luxury Inclusions External Items Notes and Conditions to be read in conjunction with selected items: Note Only

FAÇADE
- Façade discount up to \$5,000 is not applicable for No Charge facades, facades with a retail value of less than \$5,000 will be No Charge.

SLAB
- Does not include any additional reinforcement, increase in any internal or external beams, bored piers or screw piles. These will incur additional costs.

2740MM CEILING HEIGHT
Window head heights and all doors to remain at standard height.
Openings/bulkheads will increase in height to 2465mm. Includes bulkhead above overhead cupboards and fridge space.
Increase overall vertical size of overhead cupboards and open shelf to fridge space by 150mm to suit.

SQUARE SET CORNICE
Square set cornice is included to Kitchen, Pantry, Meals & Living in addition to Entry. If any rooms adjacent to these areas do not have a dividing bulkhead then a bulkhead will be added to this opening.

DOUBLE GLAZING
Double glazing applies to all standard aluminium windows excluding corner butt joined windows. Sliding doors, entertainer doors and glazed timber hinged doors are not included.
Standard sliding windows will be changed to awning windows and windows located on Ensuite/Bath hobs to be changed to 1372mm high, head height to be 2173mm (ground floor) or to the underside of eaves (first floor). Window will not be seated on hob to suit awning window winder.
Timber single and/or double glazed window upgrades are not included in the promotion and may incur additional charges.

2370MM HIGH ENTERTAINER/SLIDING DOOR
Refer to standard floor plan for door configuration (entertainer sliding/standard sliding) and width(s).
If ceiling heights remain as standard 2590mm high and selected house and façade is brickwork (not AAC rendered panels) a painted fibrous cement infill will be provided in lieu of brickwork above door to suit construction practices and minimum brickwork height required over openings.
For houses with rendered aerated concrete panels pack out external wall an additional 35mm to create an overall wall thickness of 235mm in lieu of 200mm to accommodate for the increased sill/reveal size in the Boutique profile entertainer door.

Pre Contract Agreement

VJE LAND SALES PTY LTD

Site Works Notes		0.00
4-1	<p>Client to arrange for the house to be demolished/removed and site is to be left ready for construction to commence.</p> <p>The client should ensure all of the following items are completed either by themselves or their engaged demolition contractor, prior to Carlisle homes performing a secondary survey and soil test and providing fixed price site costs.</p> <p>Obtain a demolition permit (Demolition contractor can typically obtain this permit)</p> <p>Obtain an asset protection permit from council for the duration of the demolition works.</p> <p>Obtain permits as required and remove all trees including stumps and root systems within 10 meters of the proposed dwelling on the client's lot (An Arborist's report may be required to obtain a permit and to advise how to safely remove above mentioned trees and root systems)</p> <p>Obtain an asbestos clearance certificate from demolition contractor and provide to Carlisle Homes.</p> <p>Remove sewer lines back to the tie location.</p> <p>Remove Storm water drains back to the Legal point of discharge if located on the property or to the title boundary if located outside of the property.</p> <p>Remove mains water lines back to the tap near the meter (if existing) and cap line. Water meter must remain on site. If water meter is not available on site, Owner to provide prior to building permit being received.</p> <p>Disconnect and remove existing gas supply including, underground gas lines and meter, to be capped by distribution company.</p> <p>Disconnect and remove existing incoming electrical supply back to the pole or pit by distribution company.</p> <p>Remove structures from the proposed construction area (above and below ground) and from any path new services will need to follow for connection.</p> <p>Remove any excess soil and debris following demolition.</p> <p>Client to ensure they receive and provide to Carlisle Homes all appropriate certificates of compliant work and required permits for works completed during demolition and/or obtained by owners.</p> <p>Following confirmation of a clear site and receipt of all required documents a second survey and soil test can be ordered.</p> <p>IMPORTANT NOTE:</p> <p>All demolition materials must be removed from site and an asbestos clearance certificate must be provided. All care must be taken by the demolisher to remove the below ground footings from the existing house, other structures, services and root systems.</p> <p>Any debris including old storm water / sewer pipes, bricks, footings or general rubble left in the ground by the demolisher that are discovered during the excavations of the proposed dwellings slab are to be left at the rear of the property for the owner to arrange for removal at owners expense. Any additional labour, engineering and/or subsequent additional works required as per Carlisle Homes structural engineer's recommendations to resolve changes in soil conditions involved with discovery and removal of below ground items as above will be charged to the owners by way of variation.</p>	Note Only
4-2	<p>Restrictions on trees and shrubs should be considered to reduce the risk of any future problems for the structural integrity of the slab.</p> <p>As a general rule do not plant trees within a distance from the building that equates to their mature height.</p> <p>Owners should seek advice from a suitably qualified arborist to ensure that appropriate species are planted. Refer AS2870-2011 Appendix B, clause B2.3(c).</p>	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

4-3	<p>The Client must provide an asbestos clearance certificate to Carlisle Homes following the completion of all demolition works. Carlisle Homes will not commence on site if the certificate has not been provided. The client must also arrange for all asbestos fencing to be removed at the time of the demolition.</p> <p>If any asbestos is found buried below the ground level during excavations by Carlisle Homes, the job will be put on hold and the owner will be required to clear the site and provide an asbestos clearance certificate relating to the below ground asbestos. Carlisle Homes will seek an extension of time from the time the owner is notified of the asbestos problem until the receipt of the clearance certificate.</p> <p>Note: Any costs incurred to Carlisle Homes as a result of this process will be charged by way of variation to the owner at the cost plus 20% margin.</p> <p>It should be noted that in some severe cases, all works done by Carlisle Homes including drainage may need to be removed for the site to be properly cleared of the asbestos. In this extreme situations the costs to the owner could be up to \$10000.</p>	Note Only
4-4	<p>Site cut and fill may be subject to change once all property information, location of services on client's property/adjoining properties and engineering requirements are known.</p> <p>There may be undermining issues relating to services and adjacent structures and engineering upgrades may be required which can not be determined at this stage. Any additional works required will be advised by way of variation and additional charges may apply.</p>	Note Only
4-5	<p>Owner must arrange for an underground power pit to be installed to the site prior to construction commencing. As it normally takes approximately 4-6 weeks for the pit to be installed, it is recommended that this be done as soon as the Tender/Post Contract Agreement is signed. Pit will need to be located at front left/right hand corner of site.</p> <p>Client acknowledges if the electrical pit is not installed and connected ready for use prior to site start, client will be charged by way of variation for a generator to supply power to the site up to the time the electrical pit can be connected to.</p>	Note Only
4-6	<p>Following initial approval by Carlisle Homes to build client's selected house type, there may be planning and regulatory issues which may not allow selected house type to be constructed and these may not be known until planning application and process is underway. Carlisle Homes reserves the right to change its decision to build and not proceed with the project.</p> <p>Carlisle Homes recommends that the client DOES NOT undertake any demolition works until such planning and regulatory approval is obtained and Carlisle Homes has confirmed in writing that the client may proceed with demolition.</p>	Note Only
4-7	<p>It is the responsibility of the clients to undertake any tree removal including obtaining any necessary permits and to provide a site clear of any vegetation and debris to the satisfaction of the builder prior to commencement of construction.</p>	Note Only
4-8	<p>If the sewer tie is not located at required height to achieve sufficient flow from house sewer drains, any additional costs incurred by the Water Authority to install a new sewer tie will be passed on to clients by way of future variation.</p>	Note Only
4-9	<p>It is the Client's responsibility to ensure that all existing services to the site are abolished by the relevant supplier/contractor prior to commencement of demolition including power and gas supply.</p>	Note Only

Pre Contract Agreement

631 Springvale Road
MULGRAVE
VIC 3170

Excavation		0.00
5-1	<p>The prices quoted for the site cut and slab cost are provisional and will be reviewed on completion of a second soil and survey test when the site is cleared. If the soil report recommendations or the site levels have changed the amount quoted will be changed accordingly.</p> <p>Note: The more subsurface soil is disturbed the more likely slab costs and earth works costs will increase.</p>	Note Only
5-2	Provide site scrape and removal of vegetation to achieve a level building platform.	Included
Slab Upgrades		14,957.00
6-1	<p>Provide 385mm high "H" Class Waffle pod slab instead of standard "M" class, as per soil report number 169945 and preliminary slab design dated 13/06/2024.</p> <p>The Alfresco (when included) and Porch will have concrete poured as part of the slab. Please note that it will be necessary to pour a finished concrete over this concrete as Carlisle Homes cannot guarantee that the concrete will not be damaged and scuffed during construction.</p> <p>Note: Concrete slab to standard areas only, excludes extensions to the standard slab area.</p>	More Luxury 2023 Inclusions
6-2	Provide 450mm diameter bored concrete piers to the Waffle Pod slab as per soil report number 169945 and preliminary slab design dated 13/06/2024.	13,193.00
6-3	Provide additional steel reinforcement due to P class site, as per soil report number 169945 and preliminary slab design dated 13/06/2024.	1,359.00
6-4	Provide internal stiffening beam to the waffle slab as per soil report number 169945 and preliminary slab design dated 13/06/2024.	405.00
Services, Connections and Site Requirements		31,449.00
7-1	As per the overhead power lines OH & S report, a permit and protection measures applied to the power lines are required. Due to works to be performed during the construction of this dwelling being assessed as being too close in proximity to the power lines adjacent to the clients lot or on the other side of the street.	3,150.00
7-2	Provide Crane Truck, Dogman and Spotter due to overhead power lines to the front of the building site, for safe delivery of materials to the building area.	12,590.00
7-3	<p>Provide a traffic management plan (for double storey house) to the satisfaction of the builder for the proposed dwelling.</p> <p>Following acceptance of the traffic management plan by the OH&S Manager any additional works required to accommodate standard deliveries shall be charged to the client by way of variation.</p>	6,245.00
7-4	Provide additional run of three phase under ground from the electrical supply pit to the meter box located on the side elevation of Study.	310.00
7-5	Provide shade cloth protection to double storey scaffolding to left hand boundary.	582.00
7-6	Provide material handling charge in an established area due to limited site access to the left or right sides of the site.	2,500.00

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

7-7	N1 or N2 wind speed rating are included within the house base price. As per wind speed rating assessment, this site has been classified as having an N1 rating.	Note Only
7-8	<p>Provide Hydraulic report to determine the following services connection requirements:</p> <ul style="list-style-type: none"> * location of sewer connection point, determine that sewer pipes are clear of debris/tree roots and that adequate fall to sewer connection point can be achieved * location and type of storm water connection point and that fall for storm water run off is adequate <p>Once report has been received any additional requirements to achieve connection of above services will be passed on to clients by way of future variation.</p>	372.00
7-9	<p>Provide stormwater connection in the instance when the stormwater may need to be directed to the kerb and channel.</p> <p>Note: Depending on site levels and finished level of house the required fall to point of discharge may not be achievable. In this instance a fully charged storm water system connected to all downpipes will be required. All downpipes will need to be 100mm PVC painted downpipes in lieu of standard painted metal, to suit charged storm water system. An Engineer designed system for storm water disposal within the site may be required if there are no drains to connect to or if the proposed height of gutters is below the height required for a charged system to operate.</p> <p>An onsite assessment will be completed once demolition is complete, and all additional charges / credits for required systems will be passed on by way of variation at the time of site start.</p>	3,500.00
7-10	<p>Existing sewer connection to be capped at water authority point, onsite measurement of all pipe size depths and offsets completed and certificate provided by Carlisle Homes contracted licenced plumber prior to site start for engineering purposes.</p> <p>Note: This is only to be completed by Carlisle Homes contractor. Any works completed by an external contractor or demolition company will not be accepted</p>	1,600.00
7-11	<p>Provide crushed rock to driveway area to enable heavy vehicle access to site. The crushed rock is to remain on site upon completion.</p> <p>This item is for setbacks up to 10.0 Metres maximum in addition to standard 6 Metres as included.</p>	228.00
7-12	A Dilapidation report will be required should Protection Work Notices be required, this will be advised on receipt of relevant site information.	Note Only
7-13	Due to Victorian Government requirements, from January 2024 onwards new homes requiring a planning permit are required to be all-electric, meaning gas connections will not be permitted. New homes that do not require a planning permit are not affected by this policy and can be constructed with gas connections. Carlisle Homes will advise owners when a planning application is required and the application will be assessed by the Council in accordance with the Council's planning scheme. Once the permit and any conditions are received from the Council, Carlisle Homes will raise a variation to change to all-electric. This will include changing appliances and hot water units to suit. It is the owner's responsibility to confirm the power supply in the electricity pit available to their block to ensure it has enough capacity to cater for their appliance selections, heating and cooling, personal requirements and overall wattage. It is advisable to have a 3 phase pit with 40amps per phase. If a single phase pit is available the owner is required to advise Carlisle Homes and make the necessary changes to their selected products to suit.	Note Only
7-14	Provide footing probe to determine neighbouring properties depth of footings. (Not included in initial soil report)	372.00

10-6	<p>Provide application for planning permit due to land subject to flooding (AHD levels).</p> <p>Once AHD levels are confirmed all requirements will be determined, any additional costs will be passed on to clients by way of future variation. If the Planning Permit is issued or will be issued on terms or conditions which are unsatisfactory to Carlisle Homes in its absolute discretion, then Carlisle Homes may terminate the building contract by giving written notice to the Owner. In the event of termination by Carlisle Homes, Carlisle Homes is entitled to a reasonable sum for the work performed up to the date of termination, including but not limited to internal administration costs and third party expenses.</p>	1,500.00
10-7	<p>Provide dispensation application due land being in a flood prone area as per Council requirements (Building Regulation 153 and/or Regulation 154)</p> <p>Application will be applied for once the Pre-Contract Agreement has been signed and deposit has been paid. This application can take from 6-12 weeks for full approval. Note: The payment of this application fee does not constitute approval. Should the dispensation application not be approved by Council the site works including any engineering upgrades will be adjusted to suit Council requirements and any additional site costs will be charged accordingly. This application does not include any approvals for planning permits through Council or approvals through Melbourne Water.</p>	1,500.00
10-8	<p>If the applicable velocity flow rate information is not available for this property from Council or Melbourne Water, a Hydraulic engineer will be engaged to determine the applicable velocity flow rate as required for all jobs affected by a flooding overlay in order to obtain a Building Permit.</p> <p>This charge will be passed on to the client by way of variation.</p>	Note Only

10-9	<p>This Lot is subject to a Planning Scheme, which includes planning controls in respect to trees.</p> <p>Once an official Siting drawing is completed and the preliminary permit check is obtained, Carlisle Homes will confirm if the owner is required to apply for a Planning Permit. The Owner is responsible for applying for this planning permit along with all tree protection measures required to the satisfaction of the relevant Council, including but not limited to the costs and /or delays associated with the following:</p> <ol style="list-style-type: none">1. Conditions placed upon any Planning Permit;2. Establishing Tree Protection Zones on the Lot (and adjoining properties or nature strip if required);3. The appointment of a project arborist;4. Tree root investigations and arboriculture reports;5. Compliance with any arborists report or recommendations;6. Suspension or disruption to the building works; and / or7. Delay in the installation of services. <p>Such costs may include, for example, costs incurred by Carlisle in the event that the Owner's arborist fails to attend site and Carlisle's employees and / or subcontractors are unable to carry out work, resulting in lost wages and associated costs. In this instance, the costs incurred by Carlisle will be forwarded to the Owner.</p> <p>If any of the above items 1 –7 apply, Carlisle Homes may, acting reasonably:</p> <ul style="list-style-type: none">• vary the house type, size or layout;• adjust the tender price or charge a variation for any additional works required; and / or• suspend the building works <p>in which case Carlisle Homes is entitled to a reasonable price for work performed up to and including that date.</p> <p>Where a planning permit is applicable and amendments are required as per a Council response, Carlisle Homes will charge an administration fee of \$1500 to update documents accordingly by way of variation. Carlisle Homes also reserves the right to review planning permit conditions in accordance to our build process and build method. In the event that a condition does not coincide with said build method/scope, Carlisle Homes may terminate contract.</p>	Note Only

10-10 ASSET PROTECTION - Established Suburbs. Note Only

The Owner is required to apply for and pay the Asset Protection Permit/fee including the Security Deposit through their local council. The Council Asset Protection Permit/fee including the Security Deposit is the Owner's responsibility as the fee and deposit amounts vary between councils. As such, Carlisle Homes are unable to include these items in our base house price.

Carlisle Homes agree that the majority of deliveries are to be made to the site by using the existing crossover. Some deliveries will need to be made over the footpaths as access to the site is restricted due to the size of the front yard and the site being in a built up area. As we are unable to assess the suitability of the existing crossover or footpaths for heavy vehicle deliveries, the Owner will be responsible for any damage that occurs to the crossover and footpaths. In inner suburban areas, crossovers built many years ago will break when heavy deliveries are made to the site. Footpath bays are not built for heavy vehicle deliveries and will also break when we deliver materials to the site. As Carlisle Homes have no alternative way of making deliveries to the site, we cannot be held responsible for any crossover or footpath bays that do break during construction.

Rectification works to crossovers and footpaths will be required by the local council as soon as possible after the completion of construction. We recommend that these works are carried out at the same time the Owner completes their concrete driveway. If these works are not carried out by the Owner, the local council may keep the Security Deposit and also charge the owner an additional amount for the repairs.

The owner must provide copies of the Asset Protection Permit and Security Deposit to Carlisle Homes prior to the commencement of construction. It is recommended that the owner apply for the Asset Protection Permit and Security Deposit two weeks after signing the building contract. If the owner does not apply and pay for the Asset Protection Permit and Security Deposit prior to the job commencing on site, Carlisle Homes will not be responsible for any fines issued by council. Clients should note that fines issued by the council can be as high as \$1000.

Rescode & Energy Requirements		1,812.00
11-1	<p>This tender is subject to Six Star energy rating requirements, refer to "Notes and Conditions" at the end of this document for more information.</p> <p>The changes made to the standard house design that have been included in this document may incur additional costs due to energy rating requirements.</p>	Note Only
11-2	<p>Ceiling Insulation: Where ceiling insulation with an 'R' value of R3.0 to R6.0 is installed to house area (standard or as an upgrade), R2.0 to R2.5 (refer to Energy Rating Report) batts only will be installed to perimeter of roof for 500mm due to the thickness of R3.0 to R6.0 batts.</p>	Note Only
11-3	<p>This siting is based upon the adjoining property being under construction. If the adjoining property obtains a certificate of occupancy before we have received a building permit, the Rescode requirements will need to be re-evaluated. Any further requirements will be charged to the owner by variation where applicable.</p>	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

18-4	Provide 10No. 2340mm high flush panel doors instead of 2040mm high flush panel doors to: - 2No. Master Suite - 1No. Master Ensuite WC - 1No. Bedroom 2 - 1No. Powder Room 2 - 1No. Bedroom 3 - 1No. Bedroom 4 - 1No. WC - 1No. Bathroom - 1No. WIL 2	1,280.00
18-5	White cushion door stops are now provided as standard to hinged doors swinging back on to a wall.	Note Only
18-6	Provide 2No. laminate uprights to fix shelving to when a cavity sliding door is installed to WIR. Upright to be located to WIR 2 and WIR 3.	116.00
18-7	For Affinity house types standard internal and external door heights vary depending on location and selected façade. Standard 2340mm high Entry and internal doors are highlighted on floor plan with a 2405mm high frame (entry door) and an asterisk (*) adjacent to door width for both. Aluminium sliding doors are standard 2110mm high. Upgrades to door heights are available at additional cost and any increase in door heights will be documented in tender/contract documents and noted on contract drawings. Clients need to be aware that door height increases need to be requested and documented separately and in some cases door heights can not be increased due to ceiling heights, structural requirements or location of services. Front Entry door height increase to 2340mm will be highlighted on floor plan with a 2405mm high frame and an asterisk (*) adjacent to door width. Internal door height increase to 2340mm will be highlighted on floor plan with an asterisk (*) adjacent to door width. Aluminium sliding door height increase will be highlighted on floor plan as 2365mm high. Clients to ensure they are satisfied with the nominated sizes of all doors and upgrading a specific door height does not automatically apply to remainder of doors to house.	Note Only
18-8	As a result of a Product Improvement all cavity sliding door systems will be installed as a flush jamb system instead of flush pull system. Door widths may, at Carlisle Homes sole discretion, be reduced to suit the new system and any adjustments will be raised by way of a future variation. Note: Any prior agreement to increase wall thickness to 180mm is no longer applicable and a standard 90mm thick plaster lined wall will be provided. Neighbouring construction elements are to be adjusted to suit, at Carlisle Homes' sole discretion.	Note Only
Internal Decorative Finish Variations		554.00
19-1	Provide square set cornice to Theatre instead of standard cornice. Includes laser levelling and battens as required to suit square set cornice.	927.00
19-2	Provide square set cornice to Study instead of standard cornice. Includes laser levelling and battens as required to suit square set cornice.	642.00
19-3	Delete colourboard shelving and hanging rail to Master WIR. Per Master WIR.	-1,015.00

2. PRICING
- (a) Except for Fixed Price Packages and House & Land Packages, the pricing and quantities contained in this Sales Quotation are approximates only and subject to adjustment, and Carlisle is not bound by the estimated pricing and/or any representation set out in this Sales Quotation. The pricing will be confirmed by Carlisle at the Client's Tender / Contract signing appointment.
- (b) All prices quoted are GST inclusive, unless stated otherwise.
- (c) Once the Sales Quotation has been presented to the Client, the Client has 7 days to sign the Sales Quotation and pay the initial deposit ("Quotation Period"). During the Quotation Period, the Client must also provide all necessary paperwork to his/her sales consultant in order to allow Carlisle to finalise the Sales Quotation. If during the Quotation Period the Sales Quotation is not signed, or the initial deposit is not paid or the paperwork is not provided by the Client, Carlisle reserves the right to amend the prices quoted in the Sales Quotation.
- (d) This Sales Quotation is accepted by the Client once the Sales Quotation is signed and the initial deposit paid.

27-3

2. PRICE LOCK AGREEMENT
- (a) Carlisle Standard Price Lock Agreement
- Price Lock Agreement: Pricing contained in this quotation (the base house price, 365 Inclusions, More Luxury promotion, quoted variations, and upgrades) will be held by Carlisle Homes for eighteen (18) months from the date of the initial deposit until site start. If site start does not occur within 18 months of the initial deposit, Carlisle Homes reserves the right to withdraw or revise all pricing contained in the quotation/contract.
- In order to be eligible Carlisle's standard Price Lock agreement, the customer must adhere to all appointments as scheduled by Carlisle Homes and sign the Pre-Contract Agreement promptly once prepared, usually within 5 weeks after Initial Payment of \$2000 is paid.
- Note: Carlisle Homes requires a minimum of ninety days to commence building works from when the customer becomes the registered owner of the land. 'Site Start' has the same meaning as 'Commencement' in the HIA New Homes Building Contract and means the day on which excavation works for the Building Works commences on the Building Site. Carlisle Homes may revise all pricing and promotions if the customer does not adhere to all appointments, promptly sign documentation as required, or if the Site Start does not occur on or prior to the last day of the 18th month from Initial \$2000 payment.

Note Only

27-4

3. ITEMS IN THE SALES QUOTATION
- (a) Any non-standard requests are subject to approval by Carlisle.
- (b) The Client has been made aware that display homes may have options on display that differ from the standard plans and standard specification for the home type in this Sales Quotation. The Client has been provided with a copy of the standard inclusions, upgrade options list and promotional material specific to their selected home, and based on these documents, the Client has selected the options identified in the Sales Quotation.
- (c) The Client acknowledges that options chosen by them may affect the energy rating of their home and may have additional cost consequences for the Client to achieve the required energy rating standard.
- (d) All specifications, inclusions and conditions of this Sales Quotation at the time of signing are subject to change without notice to comply with changes to Victorian State and Local Government Planning and Development legislation and the availability of materials and labour etc. The Client acknowledges that such changes may alter the price stated in the Sales Quotation.
- (e) The dimensions, openings and bulkheads are indicative only and may vary in accordance with construction details. The Client should refer to the working drawings for their selected home.

Pre Contract Agreement

VIC 3170

27-5	<p>4. DISPLAY HOME</p> <p>(a) Specifications: Some items in the display home have been upgraded for display purposes and are not included in the standard home including: For example (without limitation) cabinetry and cabinetry handles, decorative mirrors, contrasting cabinetry colours, feature walls, and door furniture.</p> <p>(b) Tiles: Feature floor, wall tiles and decorative tiles may be available for an additional charge (as they are not included in Carlisle’s standard range) and are subject to availability.</p> <p>(c) Electrical Items: Additional internal and external light points and decorative light fittings, low voltage down lights, security systems, intercom system, home theatre wiring and decorative switch cover plates may be displayed but are not included in the standard inclusions. These items may be available for additional costs. The locations of electrical fittings in the displays homes are indicative only.</p> <p>(d) Heating & Cooling: The quantity and location of ducted heating and cooling outlets, unit size/models, and controllers in display homes may differ from the standard inclusions for the selected home.</p> <p>(e) Internal Items: Window furnishings, furniture and décor items, feature paint colours and/or non-standard finishes, door closers, timber flooring and carpets are not included in the standard home (and some are not available).</p> <p>(f) External items: Paving, decking, deadlocks, pergolas, landscaping, water features, outdoor fireplaces, swimming pools, fences, concrete paths and driveways, etc. are not included in the standard inclusions (and some are not available).</p> <p>(g) Mortar colour: Availability of mortar colour may be dependent on developer’s guidelines.</p> <p>(h) Timber finishes: Where external timber components are included in the standard home or façade upgrade options, they will be painted by Carlisle (stained finishes may be available for an additional cost). Display homes may feature stained timber finishes.</p> <p>(i) Product Improvement: Carlisle reserves the right to use alternative suppliers to those whose products are displayed, due to reasons of product improvement or availability of supply. Please refer to the standard specifications and Carlisle’s Spectra showroom for currently available items.</p>	
27-6	<p>5. BUSHFIRE PRONE AREA</p> <p>Carlisle will conduct a preliminary bushfire assessment at the time of the site survey. The costs associated with any additional works resulting from the Client’s land being in a bushfire prone area will be borne by the Client.</p>	
27-7	<p>6. SIGNING THE SALES QUOTATION</p> <p>By signing this Sales Quotation, the Client agrees and acknowledges:</p> <p>(a) The Client agrees with all the terms and conditions contained in this Sales Quotation;</p> <p>(b) Carlisle will prepare a Tender based upon the information provided by the Client; and</p> <p>(c) The initial deposit will form part of the contract price.</p>	
27-8	<p>7. TAX OR DUTY INCREASE</p> <p>The Builder reserves the right to increase the price of this Sales Quotation to recover any increase in the GST rate which takes effect after the date of this Sales Quotation and which causes an increase in the cost to the Builder in constructing your home.</p>	Note Only
27-9	<p>Any request by the Owner to terminate the arrangement after contract signing will be determined by Carlisle Homes in its sole discretion. Should Carlisle Homes accept a requested termination, Carlisle Homes is entitled to a reasonable price for the work performed, including but not limited to third party and administration costs, plus consequential losses including loss of profits.</p>	Note Only
Notes & Conditions		0.00
28-1	<p>Where there is any increase in the GST rate which takes effect after the date of this Tender and which causes an increase in the cost to the Builder in complying with the Tender, the Owner agrees that the Builder is entitled to increase the total contract price equal to any increase.</p>	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

28-2	<p>If the proposed Garage location is on the boundary line and there is existing fencing, the Owner(s) is required to remove all fencing against the location of the proposed Garage wall. This includes a one metre section either side of the proposed Garage wall on the boundary line.</p> <p>If a temporary fence is required in this location to secure neighbouring property, Carlisle Homes will arrange this under the condition that the existing boundary fence is removed prior to installation of temporary fencing and prior to Commencement of Building Works. The temporary fence will need to be installed a minimum of 200mm off boundary on neighbour's side and to a minimum height of 1800mm.</p> <p>Note: Carlisle Homes will not be responsible for ensuring the fence either remains upright or finishes flush with the Garage wall once built. Should we address disputes with neighbours, ie. Carlisle Homes is entitled to an extension of time and delay damages in the event that the fencing works cause a delay.</p>	By Owner
28-3	<p>Client to ensure all survey pegs are identifiable prior to commencement of construction. Clients will be charged for a re-establishment survey to identify boundaries by way of variation if required.</p>	Note Only
28-4	<p>A square edged Dressed All Round (DAR) KDHW bottom architrave shall be supplied to kitchen windows that have an architrave seated on the kitchen bench, adjacent to a sink. Note: the clients selected architrave will be finished to the DAR section of KDHW architrave along the bottom of the window.</p>	Note Only
28-5	<p>Carlisle Homes prides itself on the quality of its product and takes steps to ensure that each of our houses is built to the same standard as our display homes. We therefore conduct thorough QUALITY ASSURANCE inspections on the home - at no cost to the Owner. Carlisle Inspection reports will be made available to the Owner upon request.</p> <p>Standards of workmanship</p> <p>Whilst our construction practices comply with the requirements of the NATIONAL CONSTRUCTION CODE (NCC), we have developed some construction practices under the performance-based provisions of the Code. These have been approved by the relevant building surveyor.</p> <p>This means that the tolerance values and standards of workmanship for all building work undertaken by Carlisle Homes is equivalent to the quality of the display homes and as detailed in the specification.</p> <p>Where there is any difference in interpretation of quality, dimension or workmanship between an Australian Standard, the Guide to Standards and Tolerances and the tolerances of the as-built display homes, the display homes or specification tolerance will take precedence.</p> <p>Owner consultant inspections.</p> <p>If you choose to engage a private building consultant to inspect the construction of your new home, it is essential for occupational health and safety reasons that you arrange any inspection directly with Carlisle Homes.</p> <p>It is also essential that any consultant first inspect our display homes to assess the quality and method of construction.</p> <p>Before signing.</p> <p>If you are concerned with either the quality of construction or the approved construction practices used by Carlisle Homes, your consultant should inspect the display homes prior to you signing the building contract.</p> <p>If for any reason, you decide to depart from the Carlisle Homes construction system (including tolerance values and level of workmanship) a variation to your contract must be raised at an additional cost to you in accordance with clause 23 of the New Homes Building Contract.</p> <p>Maintaining standards.</p> <p>As an award-winning builder, we are keen to maintain our reputation by building every home to the same standards as the display home.</p>	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

28-6	<p>If the owner intends to install any type of timber or laminate flooring after settlement, Carlisle Homes will not carry out any warranty rectifications to the floor that result from building system failures unless the client has followed the requirements as listed in the contract specification under the heading Owner installed timber and laminate flooring clause.</p>	Note Only
28-7	<p>The Owner(s) acknowledge and understand that information contained in this tender document and all contract documents whether in material hard copy or electronic form ("information") disclosed by or on behalf of Carlisle Homes Pty Ltd is and remains at all times confidential and exclusive property of Carlisle Homes Pty Ltd.</p> <p>The Owner(s) undertake to use all reasonable endeavours to keep the information secure against unauthorised loss, use or disclosure, and to only use the information for the sole purpose for which it was disclosed by or on behalf of Carlisle Homes Pty Ltd.</p>	Note Only
28-8	<p>Upon signing of this tender document for Affinity and T Range house types contract drawings will be prepared.</p> <p>Any changes made after acceptance of this tender document will result in variation fee of a minimum of \$100.</p> <p>Once Contracts are prepared for all Carlisle house types, additional Client variations will result in a \$500 Post Contract Variation fee.</p>	Note Only
28-9	<p>The client understands that flexible adhesives and expansion joints should be used in the installation of floor tiling to be completed following hand over, to minimise the chance of cracking and/or separation of floor tiles. Carlisle homes provides no guarantee for any works completed by the client or the clients sub contractors following hand over.</p>	Note Only
28-10	<p>Energy Rating - Your energy rating assessment is completed on finalisation of all variations and on completion of contract drawings. Any additional cost to maintain energy rating that are a result from clients variations will be charged to the client.</p> <p>Refer to Inclusions Document for standard energy rating as included in base house price.</p> <p>For the purpose of the energy rating assessment and unless otherwise noted, the energy assessment is based on the client installing floor tiles to the entry, kitchen, meals, family and carpet to the balance of rooms excluding wet areas after settlement of the home.</p>	Note Only
28-11	<p>The relevant Building Surveyor requires a Finished Floor Level (FFL) to be nominated on the permit documentation to determine the building height against associated services and matters of governance such as flood plains, height related setbacks, Developer requirements or engineering principals. On occasion, onsite levels may differ to the approved documentation due to conditions outside of the builders control and we allow a 150mm tolerance to cater for reduced soil removal consideration, wet weather, land survey anomalies and adjoining land considerations. The intent of this clarification is to note that Carlisle Homes will endeavour to meet the documented FFL nominated on the approved plans however the before mentioned items may contribute to a slight variation.</p>	Note Only
28-12	<p>This Building Tender is subject to a soil test, contour survey and/or information from relevant authorities. Final site costs cannot be confirmed until these items have been received. Once received information will be examined and any associated costs will be amended accordingly.</p>	Note Only
28-13	<p>Building contracts must be signed within 60 days of receipt of initial deposit for current base price to remain.</p> <p>Upon signing the Building Contract, all essential information must be received within 30 days in accordance with Clause 13 of the Building Contract otherwise Carlisle Homes Pty Ltd have the right to review the contract price.</p>	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD
631 Springvale Road
MULGRAVE
VIC 3170

28-14	This tender has been prepared using information from the relevant Local Council and /or other Authorities that is not complete or has not been finalised. Once this information is confirmed it will be examined. Should it reveal the requirement for additional works, or there be any change or difference in regulations or site conditions, then any resulting costs will be borne by the Owner/s.	Note Only
28-15	Small-scale Technology Certificates (STCs) are credits associated with the installation of solar hot water systems or solar electric panels. The client acknowledges that the value of these credits has already been reflected in the competitive purchase price of the home. The client therefore assigns exclusively to Carlisle Homes the right to create STCs pursuant to the installation of solar products in the home built on behalf of the customer. The customer undertakes not to sell, assign, transfer or otherwise deal with Carlisle Homes' rights to create STCs.	Note Only
28-16	The Owner is to provide a clear building site clear of all obstructions, including long grass, debris and objects/contaminants concealed in the soil and free of all old or unused services prior to the Builder commencing any works on site.	Note Only
28-17	It is the client's responsibility to ensure that the crossover is located as indicated on the site plan. Should the client arrange for the cross over to be relocated or widened for any reason following site survey (as drawn on site plan) it will also be their responsibility to arrange for services including the water meter to be relocated and inform Carlisle homes of the changes. Additional earthworks and survey charges may be applicable and will be determined by Carlisle homes.	Note Only
28-18	Clients to be aware as per Engineer's recommendations that no fixtures or structures are to be attached to brickwork above door or window openings following handover. Any fixtures or structures attached to external surfaces require approval by a Structural Engineer, Carlisle Homes does not offer Engineering services for any alterations or additions following handover.	Note Only
28-19	The owner agrees that Carlisle Homes will not accept any responsibility for damage to any existing timber paling or colorbond metal fencing during construction. For colorbond fences, as repairs can be costly, if the owner is concerned that due to the constraints of the building site, the fences will be damaged, they agree that they will take preventative measures such as providing a protective hoarding over the fence. As timber fences are easily and cheaply repaired, the owner does not need to provide any protective hoarding over the fence to prevent damage by Carlisle Homes.	By Owner
28-20	Carlisle Homes reserves the right to undertake a reverse building program during the lock up stage of construction. Reverse Building means the internal plaster and cornices will be installed prior to, or in parallel to external cladding being completed. Please refer to your signed Building Process Document explaining how the Lock up and Fixing stages form part of the Reverse Build Process.	Note Only
28-21	For Fixed Price and House & Land Packages on corner blocks, the package price does not include any costs associated with Developer's requirements for Corner Façade treatment. These requirements will be priced and finalised by Carlisle Homes either prior to Tender Appointment or by way of Contract Variation.	Note Only

Pre Contract Agreement

VJE LAND SALES PTY LTD

MULGRAVE
VIC 3170

28-22	<p>Carlisle Homes builds across various metropolitan areas and engage many suppliers and subcontractors across all stages of the build process.</p> <p>Some details may vary slightly from our display homes due to different manufacturing methods across the industry.</p> <p>These items may include but are not limited to the following:</p> <ul style="list-style-type: none"> - The location of joins to glass splashbacks - The location of joins to Caesarstone and laminate benchtops - The location of joins to island bench back and end panels. 	Note Only
28-23	<p>Carlisle Homes handles your personal information in accordance with its Privacy Policy (for details please see Carlisle Homes' Privacy Policy at www.carlislehomes.com.au/privacy/).</p>	Note Only
28-24	<p>Carlisle Homes reserves the right to cancel this build job (in its absolute sole discretion) prior to the building contract being signed. If Carlisle Homes elects to cancel your build job, a full refund will be provided to you within seven (7) days of Carlisle Homes' cancellation notice.</p>	Note Only
28-25	<p>Note: The stair render image shown is for illustrative purposes and is to be used as a guide only. Configurations of stairs may change subject to house type or size selection, construction requirements, ceiling heights and stair manufacturer's requirements. Carpet and floors as shown in the render image may not be included in the base house price.</p>	Note Only
28-26	<p>The Owner acknowledges and agrees that if any works are required in the void area after handover of the home, such as painting or plastering the ceiling above the void, for the duration of the works:</p> <ol style="list-style-type: none"> 1. Carlisle Homes may be required to erect a scaffold; 2. The Owner will arrange to protect, remove and/or store their furniture and goods, as directed by Carlisle Homes; 3. The Owner may elect to stay in alternative accommodation; and 4. All costs associated with alternative accommodation and the protection, removal and storage of furniture and goods will be borne by the Owner. 	Note Only
28-27	<p>Due to Victorian Government requirements, from January 2024 onwards new homes requiring a planning permit are required to be all-electric, meaning gas connections will not be permitted. New homes that do not require a planning permit are not affected by this policy and can be constructed with gas connections. Carlisle Homes will advise owners when a planning application is required and the application will be assessed by the Council in accordance with the Council's planning scheme. Once the permit and any conditions are received from the Council, Carlisle Homes will raise a variation to change to all-electric. This will include changing appliances and hot water units to suit. It is the owner's responsibility to confirm the power supply in the electricity pit available to their block to ensure it has enough capacity to cater for their appliance selections, heating and cooling, personal requirements and overall wattage. It is advisable to have a 3 phase pit with 40amps per phase. If a single phase pit is available the owner is required to advise Carlisle Homes and make the necessary changes to their selected products to suit.</p>	Note Only
